Faster Service

Streamlined process saves time for you and your customers.

Better Experience

Intuitive design delivers a smooth and satisfying user experience.

All Ages Friendly

Designed for everyone from tech-savvy users to first-time visitors.

D23 Desktop Instant Photo Kiosk

Compact. Powerful. Photo Printing Made Simple.

The DiLand D23 Desktop Instant Photo Kiosk presents an ideal solution for a bustling high street photographic retailer.

Equipped with pre-installed DiLand software, these desktop kiosks offer seamless compatibility with nearly every photographic printer available in the market.

Leveraging the convenience of touch screen technology, customers can effortlessly navigate the user interface and select from a wide range of print sizes, styles, personalised gifts, and custom products. These choices can be easily added or removed within the DiLand software's back-end system.

In today's digital era, where most photos are stored on smartphones, the DiLand software facilitates effortless image transfer from mobile devices to the kiosk.

This is made possible through ingenious methods such as wireless 4G/LTE technology, enabling customers to wirelessly transmit their images. Additionally, customers have the option to transfer images using more traditional methods such as USB cables, memory cards, and USB sticks.

Why Invest in a Photo Kiosk?

Turn Every Customer Visit into More Revenue

A touchscreen photo kiosk is more than just a printing station—it's a profit centre that encourages customers to spend more while providing a valuable service they can't easily replicate online.

Increase Store Revenue

- Generate income from photo printing and personalised products.
- Encourage impulse purchases while customers are already in-store.
- Offer premium print sizes and value-added products.

Bring More Customers Into Your Store

- Passport and ID photos create repeat visits.
- Customers return regularly to print holiday, family and event photos.
- Photo services help differentiate your business from competitors.

Boost Basket Spend

Customers collecting or printing photos often purchase additional items such as:

- Frames
- Stationery and accessories
- Albums
- Batteries
- Memory cards
- Gifts

Fast & Easy to Use

Modern touchscreen interfaces make ordering simple for customers of all ages.

- Intuitive step-by-step ordering
- Minimal staff assistance required
- Quick transaction times

Supports Today's Devices

Customers can print directly from:

- iPhone & Android smartphones
- QR codes
- SD cards
- Apple AirPrint (where supported)
- Wi-Fi
- Bluetooth (model dependent)
- USB memory sticks

Expand Your Product Offering

Depending on the kiosk model, retailers can offer:

- Standard photo prints
- Enlargements
- Collages
- Photo gifts
- Calendars
- Greetings cards
- Photo books
- Canvas prints
- Posters
- Passport & ID photos

Low Staff Intervention

The kiosk does the work, allowing your team to continue serving other customers while orders are processed.

Future-Proof Your Business

As photo printing continues to evolve, modern kiosks can be updated with new software and product offerings, helping retailers stay competitive.

BUILD YOUR PHOTO KIOSK

FLEXIBLE. SCALABLE. TAILORED TO YOU.

Choose from our premium kiosk hardware and Citizen printer range – available as individual components or as a complete bundle.

BUY AS A BUNDLE

Everything you need in one complete solution – designed to work seamlessly together.

BUY INDIVIDUALLY

Pick and choose the components that suit your business needs.

TAILORED FOR YOUR BUSINESS

PhotoXport can create a tailor made bundle to suit each customer's individual needs.

COMPLETE SOLUTION. ENDLESS POSSIBILITIES.

Combine any kiosk terminal with any Citizen printer and the kiosk cabinet to build your ideal Photokiosk solution.
