

AirCastProTM 3

Quick Start Guide

-  **1 Set Up Your Printer**

Turn on your printer and load media. Confirm there are no errors and no media error lights are on.

-  **2 Power On AirCastPro 3**

Plug in the supplied power supply. AirCastPro 3 powers on automatically. Allow up to 60 seconds for startup.

-  **3 Connect Your Printer**

Plug your printer into a rear USB port on AirCastPro 3.

-  **4 Connect Your iPad**

On your iPad, go to Settings > Wi-Fi and join the AirCastPro hotspot, or scan the QR code below.

SSID: AirCastPro
Password: aircastpro

-  **5 Open AirCastPro Settings**

Open a web browser and enter the URL below, or scan the QR code.

aircastpro.local

or

192.168.4.1

Perform a test print, select Menu > Printers > Test Print. This confirms your AirCastPro 3 and printer are properly connected and communicating.

AirCastPro™ 3

6

Set Up Your Photo Booth App

Open your photo booth app and select your AirPrint printer. You will see AirCastPro printers for 4x6 prints and 2x6 strips. For additional help, visit the link below or contact your photo booth app provider.

7

Connect to the Internet

If you need internet access for text messaging or other features, open General Settings (see Step 5), then select Menu > Network Settings > Wi-Fi to connect AirCastPro to an external hotspot. This step is optional. Internet access is not needed to print with AirCastPro.

Important: Your iPad should stay connected to the AirCastPro hotspot, not the external hotspot or router.

8

Shutdown

Open General Settings (see Step 5), click the circle icon at the top right, and select Shutdown before unplugging power.

Thank you for choosing AirCastPro 3

Visit the URL below, or scan the QR code, for helpful resources to guide you through setup, printing, troubleshooting, and technical support.
