FILM PROCESSOR

F30

A NEW HIGH CAPACITY

C-41 FILM PROCESSOR

BUILT FOR MODERN

ANALOGUE LABS.

THE RETURN OF PROFESSIONAL FILM PROCESSING

The F30 Film Processor is one of the first traditional film processors to be manufactured in over two decades.

Designed specifically for today's resurgence in analogue photography, the F30 combines modern engineering with proven C-41 processing technology to deliver reliable, professional film development.

BUILT FOR PROFESSIONAL LABS

Designed for today’s growing demand in analogue film development, the F30 uses C-41 chemistry and twin-track processing to handle up to

30 ROLLS PER HOUR

with exceptional consistency.

PROFESSIONAL PHOTO LABS | COMMERCIAL STUDIOS | INDEPENDENT FILM LABS | UNIVERSITIES | EDUCATIONAL FACILITIES

PRECISION MEETS PRODUCTIVITY

The F30 film Processor combines proven C-41 chemistry with advanced engineering to deliver consistent, high-quality results day after day.

TWIN TRACK PROCESSING
Dual independent tracks for maximum efficiency and continuous output.

AUTOMATED FILM SIZE DETECTION
Automatically detects film size and adjusts processing parameters.

LARGE GRAPHIC DISPLAY
Clear, intuitive interface for simple operation and monitoring.

AUTOMATIC REPLENISHMENT
Consistent chemistry levels for uninterrupted performance.

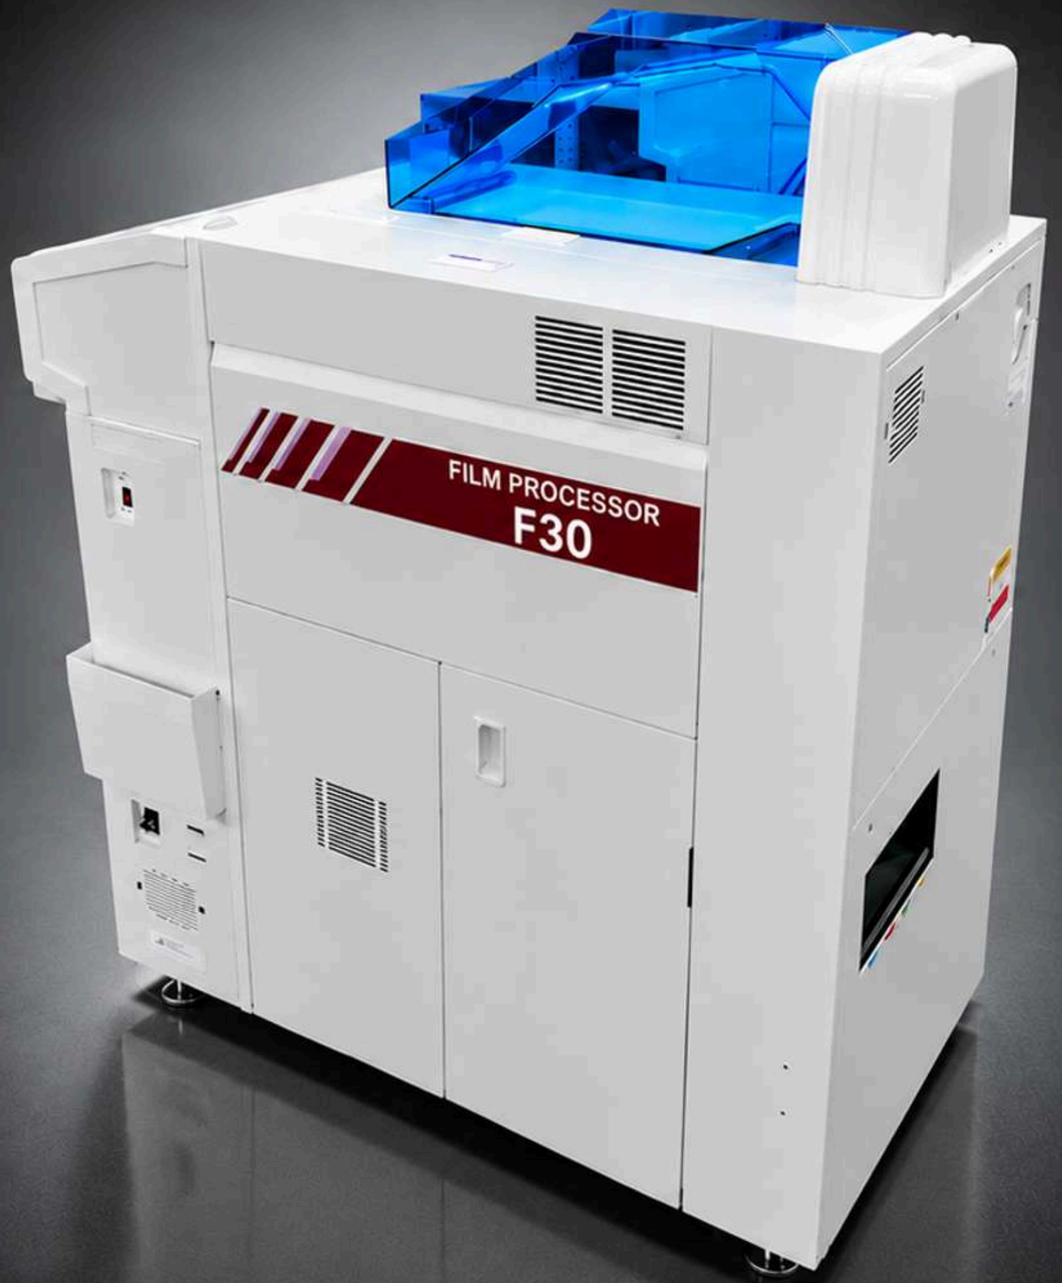

PRECISION TEMPERATURE CONTROL
Maintains exact processing conditions for superior results.

REAL-TIME FAULT ALERTS
Instant notifications for proactive maintenance and minimal downtime.

AUTO WASTE COLLECTION
Efficient and hygienic waste fluid removal for a cleaner work environment.

OPTIONAL UPGRADE

PUSH/PULL PROCESSING
Optional Push/Pull processing capability, giving professional labs greater flexibility and control over film development.

PROCESS MORE FILM

SUPPORTS

110 | 120 | 135 | IX240

COLOUR NEGATIVE FILM

The ability to process multiple film formats allows labs to serve the widest possible customer base while maintaining exceptional image quality.

PRECISION TEMPERATURE CONTROL

Accurate control for consistent, high-quality film processing.

CHEMICAL STABILITY

Reliable chemistry management for predictable processing.

AUTOMATED REPLENISHMENT

Maintains levels and reduces manual intervention.

EASY MAINTENANCE

Auto waste collection and user-friendly maintenance.

Featuring automated replenishment systems and simplified maintenance protocols, the **F30** maximises operational efficiency while minimising chemical waste.

RELIABLE EVERY DAY

PRECISION TEMPERATURE CONTROL

Accurate to 0.1°C for consistent colour reproduction.

CHEMICAL STABILITY

Reliable chemistry management for repeatable processing.

AUTOMATED REPLENISHMENT

Minimises waste while maintaining quality.

EASY MAINTENANCE

Auto waste collection and capacity alerts reduce downtime.

BUILT FOR RELIABILITY

Engineered for demanding daily use in professional labs.

Featuring automated replenishment systems and simplified maintenance protocols, the **F30** maximizes operational efficiency while minimizing chemical waste, making it an ideal solution for photography businessss seeking to maintain traditional film processing capabilities with modern reliability standards.

SPECIFICATIONS

PROCESSING

- C-41 Chemistry
- Twin Track
- Up to 30 Rolls/Hour
- Leader Card Transport

FILM SIZES

- 110
- 120
- 135
- IX240

ELECTRICAL

- Single Phase 2 Wire
- AC 220V, 3.0 kVA(14A)
- AC 230V, 3.2 kVA(14A)
- AC 240V, 3.3 kVA(14A)

COMPACT FOOTPRINT

Its compact footprint fits easily into most darkrooms.

REAL-TIME FAULT ALERTS
Help minimise downtime

AUTO WASTE COLLECTION
Built-in waste tank

CAPACITY ALERTS
“Capacity almost full” alarm

SUPPORT & WARRANTY

WARRANTY

Two-year warranty on major electronic components.

One-year warranty on the complete machine.

Warranty start date aligns with that of the complete machine.

DELIVERY LEAD TIME

Manufacturing time approximately

10–14 DAYS

after receipt of your payment.

Door to door lead time depends on method of shipment i.e. Sea freight or Air freight.

BUILT TO LAST

Manufactured to the highest standards, built on years of industry experience.

Bringing reliability, speed, and control to your workflow.
