

LayflatXpress

LF460-600M

SEMI-AUTOMATIC BINDING.
PROFESSIONAL RESULTS.

Professional layflat book block
production made simple.

BINDING MACHINE FOR SIMPLEX PRINTS

• Description •

The LayflatXpress LF460-600M is a semi-automatic book block system which produces layflat book blocks from single folded sheets.

It can make premium book formats not only by gluing paper back to back, but also by inserting cardboard between sheets.

With a manual feeder for folded sheets and cardboard and easy touchscreen operation, the LF460-600M provides a flexible solution for professional layflat book block production.

• Key Features •

- Semi-automatic book block system
- Manual feeder for folded sheets and cardboard
- Easy to operate via touch screen
- Flexible production for different sizes: 6" x 6" to 18" x 20"
- Layflat binding technology
- Hotmelt gluing technology: lower cost and quicker dry-to-dry time

Professional, Attractive And Elegantly Crafted Premium Book Formats
Production Line In Your Business.

Key Benefits of the LayflatXpress LF460-600M.

Professional layflat book block production made simple.

Premium Layflat Book Blocks

Produces layflat book blocks from single folded sheets, either by gluing paper back-to-back or by inserting cardboard between sheets.

Flexible Production

Supports book formats from 6" x 6" to 18" x 20", with or without cardboard.

Easy to Operate

Manual feeder for folded sheets and cardboard, with easy operation via touchscreen.

Hot Melt Gluing Technology

Hot melt gluing technology offers lower cost and quicker dry-to-dry time.

600 Cycles/Hour

Production speed of 600 cycles per hour.

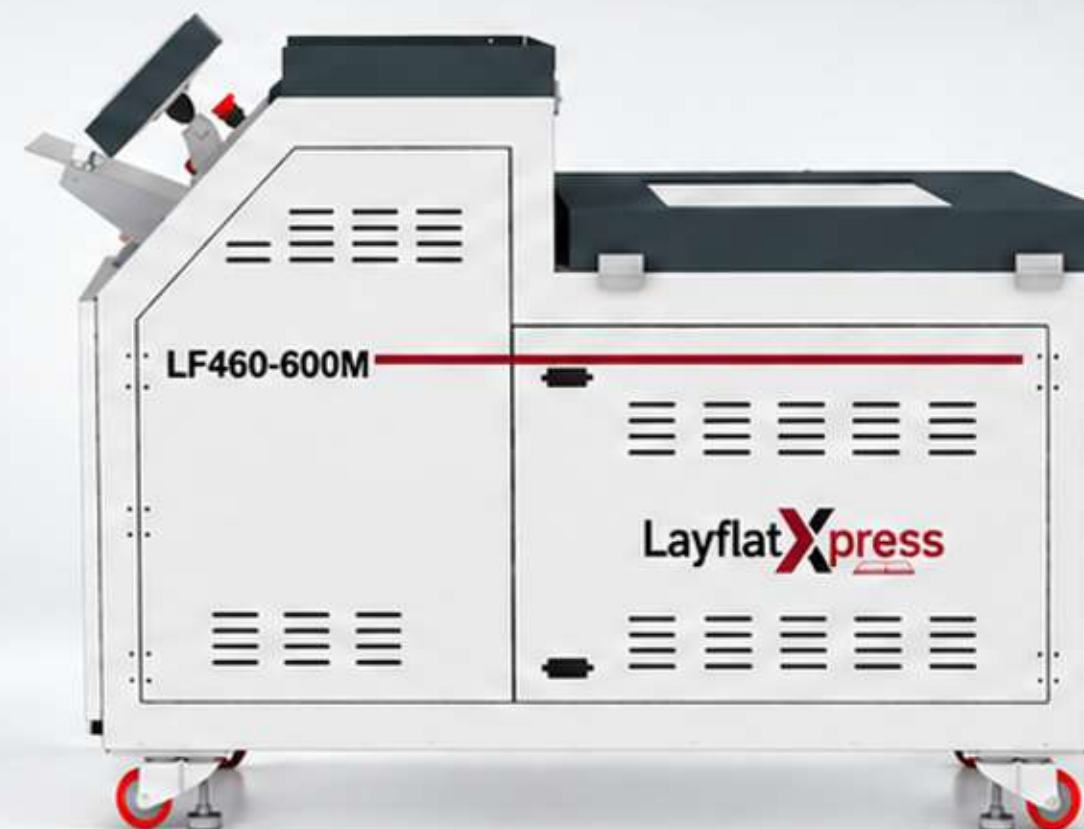

LF460-600M

Professional layflat book block production made simple.

FLEXIBLE PRODUCTION. PROFESSIONAL RESULTS.

The LF460-600M is a semi-automatic book block system for producing layflat book blocks from single folded sheets. With manual feeding for folded sheets and cardboard, plus touchscreen operation, it provides flexible production across a wide range of book formats.
