# Simple Operation

A versatile, easy-to-use inkjet drylab designed to give labs, retailers and photo businesses the flexibility to produce a wide range of high quality prints, without the need for photofinishing chemicals.

## Simple Operation

- Easy to use interface
- Real-time ink level display
- Printing progress information
- Simple operation and maintenance

### Wide Range of Print Sizes

From 102 mm to 305 mm roll widths, with paper advance lengths up to 1,500 mm.

### Panorama Printing

Create enlargements and panorama prints up to 305 x 1,500 mm.

### Dry Inkjet Workflow

No photofinishing chemicals, reducing time, costs and the need for chemical handling and disposal.

### 8-Colour Dye Ink System

Y, M, C, BK, LM, LC, LK, LLK for rich, natural colours across a wide range of applications.

### A Cleaner Way to Print

The IJP12C2 uses a dry inkjet system, meaning there are no photofinishing chemicals involved.

- **No photofinishing chemicals**
- **No chemical temperature control**
- **No handling or disposal of chemical solutions**
